Subject: ComEd Power Supply Work

Hi Verneta,

As a follow-up to our earlier conversation about the ComEd work in DuSable Park to install an auxilliary power supply to the Lakeshore Drive/Chicago River drawbridge, I noticed that the Park District's Site Maintenance Plan for DuSable Park requires written U.S.EPA consent for soil disturbing work there, and our conversation was only verbal. Can you send me confirmation that USEPA has no objections to work as long as all the safeguards are followed?

Also, as I mentioned, the power supply work must be completed by the onset of the boating season, which is approximately April 15th. We're working out the schedule for work right now, and I will contact you with dates, etc. as soon as we have something definite.

Regards,
Eamon
